**Alpesh Darji -
Ceo & Founder**

About Us

The Complete Pest Control Service.

Dev Enterprise is a trusted name in the field of Pest Control & Pest Management. The company was founded by Mr. Alpesh Darji, A dynamic entrepreneur with 25+ years of work experience. He is a Graduate from MSU and was eventually supported by his spouse Mrs. Sonal Darji.

The core strength of Dev Enterprise is a team of 15+ Qualified & Trained Staff equipped with all modern tools and Reliable & Eco-Friendly products to deliver world class pest management service. All products used by the company are safe and odour free.

Dev Enterprises business philosophy is simply defined as “*Quality Service at Right Prices*” and same is reflected in all its business transactions.

OUR VISION

Our vision envisage the larger level education to Industries and our target audience about importance of integrated ecological balance pest management. We visualise to become a pioneer company with assurance of eco friendly pest management practices.

OUR MISSION

- We at Dev Enterprise strive to make a mark in pest control industry by setting new quality and environmental standards.
- Our short term goal is to cater to at least 200+ industries with continual contract for integrated pest management.

WHY US ??

Like any service business, even pest control is also a service where dependability on vendor is high and that calls for a logical decision while choosing your vendor. At Dev Enterprise we give you plethora of reasons to hire us and be ascertained of right service deliverables at perfect price.

Our Services

RESIDENTIAL PEST CONTROL

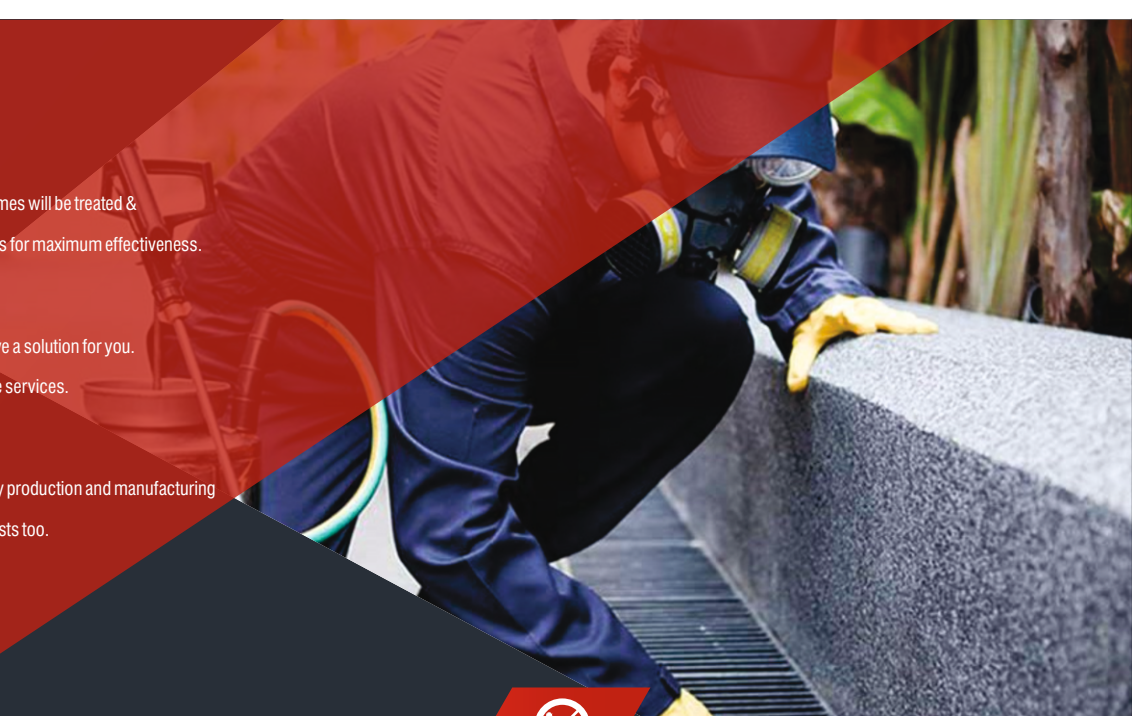

With Domestic Pest Control Services, client's homes will be treated & monitored by one of our highly trained technicians for maximum effectiveness.

COMMERCIAL PEST CONTROL

No matter what kind of business you're in, we have a solution for you. Find out what you can expect from Dev Enterprise services.

INDUSTRIAL & MANUFACTURING

Protecting your assets, people and goods in busy production and manufacturing areas there is a moment of people products and pests too.

TERMITE

Termites work underground and live in tunnels of mud mixed with their excreta and saliva. Their tunnels are built for the purpose exploring and finding food. To get rid of termites problem under control, inspection is the first and foremost step.

COCKROACH

Cockroaches are a high-risk pest to have in your premise. They carry a range of serious illnesses, including salmonella food poisoning, dysentery, diphtheria, gastroenteritis, and typhoid.

RODENTS

Rats introduce secondary pests. Rats are also known to introduce other pests, such as fleas, mites and ticks into the premise, causing additional damage. We have several treatments for Residential and Commercial premise, that includes Glue Pad, Food Baiting, Catterchet Box, Trapping, Poison Bait etc.

MOSQUITOES

Everyone knows how annoying – and painful – midges and mosquitoes can be. Somehow, no matter how many you manage to swat, there always. Seem to be some that manage to get through to give you a nasty, itchy bite or two.

WOOD BORER

The term woodboring beetle encompasses many species and families of beetles whose larval or adult forms eat and destroy wood. These beetles are difficult to control their life cycle mostly takes places in a conceal area.

FLIES

There are over 120,000 species of flies worldwide. Many are considered pests because they pose a health risk to humans, pets and livestock. Flies can infest your home or business and spread diseases like Salmonella and E. coli. A few species may even bite humans and animals.

SILVER-FISH

This nocturnal and discreet pest which can cause an infestation to go unnoticed for an extended period until substantial damages have been done. Silverfish eggs are commonly hidden in tiny cracks or crevices, making them extremely difficult to locate.

BEDBUG

Bedbugs have a very characteristic flat and oval shaped body with no wings. The average length can be between 4 and 7 mm. They are shiny reddish-brown in colour and sometimes may look dark brown.

BIRD

Birds really become annoyance for us. It creates problem when they come into conflict with humans but droppings from perches over warehouse, malls and residences, as well as birds flying across air fields are common complaints.

WHY CHOOSE US ??

- 1) Competitive Pricing** – We do Quality work at right price. Comparing apple to an apple price, We will always be giving most competitive prices for services we deliver.
- 2) IPM Certified** – We use Integrated Pest Management Techniques as given by Ministry of Environment while delivering our services.
- 3) Educative & Intuitive Approach** – In pest control, we take enough care to educate our client to certain extent and take Intuitive Approach on solving different cases. This approach ensures the desired results client is looking for!
- 4) Training & Modernisation** – We are a training driven organisation with continuous updations in modern technics, equipments & environment guidelines.
- 5) Technological Superiority** – We use new age and technically superior equipments / chemicals to ensure swift and perfect service deliverable.
